I have an industrial topper for long bed full size truck that is awesome and would be perfect for the weekend warrior or the mobile mechanic or electrician, plumber, etc....I am trying to get an ascend fs128t kayak either in trade for it or sell it to buy one either new or off Craigslist...someone somewhere needs this....it's nice and I don't want to get rid of it but I can't afford the kayak I want and this is the only way I will get it....thanks....text 4079081990
