2002 Honda Shadow for sale. Custom paint, custom handlebars [I have the stock bars if you want them], custom pipes. Paint job has skulls in the blue flames. Most people think the bike is a Harley. I own a Harley and I get more compliments on this bike. It does need a new speedo cable, it has some small scratches on the front fender and tank and some tiny dings in the tank [see pictures]. This bike is totally reliable. It has started every time I asked it to. I have ridden this bike to The Grand Canyon, Bikes Blues and BBQ in Arkansas and down to Key West. I would take this bike on any of those trips again. I love it but I have two motorcycles. Saddle bags and \$40 service manual included.
