Up for offer is a set of NEARLY NEW Crosswind M/T LT275/70R18 on/off road tires. They were installed on a Ram 2500 by previous owner just before he sold it to me. All my driving is highway so they just weren't for me, but they sure looked GREAT on the Ram! They have exactly 1274 miles on them, that's all I drove on them before I replaced them. They have no chipping, cupping, or any other defects whatsoever. These tires list new for \$187/ each, but they can be yours for only \$600 for the full set. It's like getting 1 tire FREE! If your pickup can use a "rubber refresh, this is a great way to save some \$\$\$.

First cash offer gets 'em!

I can meet in Winfield to make the deal.
