This Mary Kay kit contains 2 brand new and never used bags with a set of brushes. The follow is a description of each one:

Bag 1: The bag contains a brush collection. In this brush collection is an eyeliner brush and an eyebrow brush among some other ones as well. There are also several compartments for storing other makeup items in it and a handle on the outside to help carry it around.

Bag 2: This is a travel roll up bag. It has several components for storing other makeup items in it and a hidden hanger to help hang up as well. If going on a weekend trip somewhere, this would be great to use. It can be folded shut and fastens shut with velcro strips.
