Address:

Brunswick

Price:

645.00 \$

15 1/2 foot sturdy natural green fiberglass and wood canoe, carefully handcrafted by a former Boy Scout. Good condition; gently used on occasional basis by one family over the years. Patching is necessary from time to time with normal use, and a few areas on the sides and bow can be seen that have been effectively patched. With a traditional design for stability, it has no seats; users kneel on the floor ribs (and a pad), leaning against bow and stern thwarts.

Comes with a pair of 48" roof rack bars with pads to transport on car roof, given two strong people to lift it in place plus additional bungee cords or rope. Will also include family set of 4 paddles, 36-60" long, in usable, fair condition.

The canoe is stored on rope pulleys from garage ceiling to prevent damage, and will be brought down only for the serious buyer.

By appointment only, March 20-22. Pick up only. Inquiries welcome.
