1999 Honda Valkyrie - WILL NEED TO BE TOWED - This was my Dad's bike, he passed away a few years ago. I cannot answer a ton of questions as I do not know much about the bike but I know he took care of it when he had it. I believe it needs a tune-up maybe a new battery as it won't start, but he had it working before he passed away so I am fairly sure it's just a bad battery.

My dad was planning on selling it before he passed- heres what he wrote for the post:
