SELLING GAMING PC! ~

Selling Gaming PC used, still works just can't handle all the new heavy multitasking (coding heavy + other stuff) stuff I do now. Works wonderfully for the average gamer and student. Only 3 years old. "HP Omen 30L" Specs are attached. Regularly dusted but will still have some signs of ownership. New RAM recently installed. No major cosmetic defects. Adult owned in clean home.

Quick Stats:

16 GB RAM

NVIDIA GTX 2060

AMD Ryzen 7 8-core

On Ebay this is being sold (used) for around 700 + 100 shipping. Naturally this is a local sale so no shipping fees plus I'm selling for less.
