Address:

5730 Shore Blvd. S, Gulfport, Gulfport

Price:

1000.00 \$

Recently bought this fun toy for \$1,400, almost brand new. Previous owner had ridden it for maybe 15 hours before selling to me. I've used it for maybe a total of 30 hours. Its a LOT of fun, but i've had a hard time finding places to ride around here. From NH originally, recently moved to Florida.

Still runs and operates great, though it currently needs about 25 minutes of tlc/tune up. (Handle break needs to be tightened, LED headlight wire connection needs to be tightened. Basically there's vibration from the motor and stuff needs to be tightened periodically.)

The stock version of this bike is about \$1,400 new, but has a top speed of 25mph.

This bike has the stage 1 kit upgrade (better air intake and exhaust) and has a top speed of 45mph.

Starts on the first pull every time.

Has full suspension which gives a smooth ride.

Bike weighs 165lbs.

Idling noise is quiet, revving noise is about the same as a lawn mower.

Looking to sell so i can switch to an ebike and take my dog on runs.

(Located in Gulfport, FL.)
