Address:

Highlands Ranch

Price:

5500.00 \$

Nice 4x4 side by side with only 328 miles. Original owner. Dump body has a removable jump seat for seating 2 additional people, or can be removed for hauling. This has a removable Cabela's snow plow and a 2000lb electric winch. Unfortunately the winch electric wiring is faulty, requiring work - winch is currently not operable. Everything else working well, including head and tail lights. Free delivery in Denver area, other areas of front range with negotiable price. Cross posted to other sale sites. Located near major cross streets of University and Venneford Ranch. Additional photos in comments below.
