5200.00 \$

Hi!

We are selling an RV Chevy Coachmen 21foot long year 1986.

My girlfriend and i have been travelling on it along the West Coast . Now its time to go back to our country and sell the RV.

This RV is a really rare one to find, an antiquity! Its one of the smaller dimensions, easy to drive it takes you everywhere, great!!

It is in very good shape, the engine is running perfect, all the mechanical components are working good! Just had SMOG CHECK DONE 05/09/18! So it is ready to be registered in California!! the plates are from Oregon.

Just replaced the auxiliar battery a week ago and It has new back tires 2 months ago!! All the lights are working. Breaks working good. Windshield wipers working! Ready to drive!!!

We have took really good care of this vehicle! Everything is working perfect:
